Two Day Virtual ICD-10-CM Coding Training

Presented by:

Lisa Selman-Holman and Michelle Horner

September 17 - 18, 2024

Two Full Days

8:00 am - 4:00 pm

Who Should Attend?

- Home Care Clinicians
- Supervisors, Managers & Directors
- Coders & Coding Managers responsible for conducting the comprehensive assessment, applying diagnostic codes, auditing records for accuracy, and training agency staff.

Transform Challenges into Achievements

Training Description . . .

Stay ahead of the curve with the latest 2025 coding changes! Enhance your knowledge and expertise in our comprehensive two-day intermediate coding course designed specifically for home care coders by McBee experts Lisa Selman-Holman and Michelle Horner.

This course will deepen your understanding of the regulatory aspects and ethics of diagnosis coding. Through numerous examples, you will improve your skills, proficiency, speed and accuracy in selecting appropriate ICD-10-CM codes.

By the end of this course, attendees will demonstrate proficiency in complex coding scenarios and confidently handle home care charts. Additionally, we will discuss payment rules, including upcoming PDGM changes, and examine potential compliance issues. Attendees will leave with a deepened knowledge impacting their coding practice. With government auditors increasingly targeting home care, now is the time to ensure your coding practices are accurate and your revenue is protected.

Topics Include:

- Operational aspects of PDGM and the Medicare benefit, including discussion of the Face-to-Face requirement
- Specific sequencing rules as required by the conventions and Official Coding Guidelines
- Pertinent changes and updates for coding year 2025, beginning October 1, 2024
- Coding of home care pertinent changes

*Recording included with registration

■ ■ ■ ATTENTION

All attendees will need a coding book or access to the online coding center for this training. Don't have your 2025 ICD-10-CM coding book yet? Purchase today at a discounted rate through McBee Post-Acute Academy. Click [here](#) to learn more and purchase.

Lisa Selman-Holman, JD, BSN, RN, HCS-D, COS-C, is the VP of Education & Quality at McBee, bringing over 35 years of expertise in home health and hospice. As a registered nurse

and home care attorney, she specializes in regulatory compliance. Lisa has held various roles, from field nurse to executive, managing accreditation surveys, acquisitions, and regulatory crises. In 2004, she founded Selman-Holman & Associates, offering consulting, coding and OASIS review services. Lisa is a renowned educator, known for turning challenges into achievements. Joining McBee in 2021, she leads education initiatives at the Post-Acute Academy, providing courses for home health and hospice staff and executives, including clinical, regulatory and onboarding requirements.

Michelle Horner is a manager of clinical consulting and education with McBee. She has more than 25 years of experience in healthcare with an extensive background in critical care

and home care. She currently specializes in Quality, Clinical and Regulatory Consulting and Education. Michelle develops and provides education to both internal staff and external clients. She travels to provide custom on-site client education programs. Her expertise regularly appears in the Decision Health Diagnosis Coding Pro. Michelle consults with clients on process improvement projects as well as analyzing and improving outcomes and Star ratings. Michelle works with clients and staff to identify and create custom educational programs. Michelle has been instrumental in the creation of content for the McBee Post-Acute Academy.
