Blueprint for OASIS Accuracy Two Day Workshop

Workshop Presenters:

Annette Lee, RN, MS, HCS-D, COS

-C is a registered nurse, with a Masters in Health Care Administration practicing since 1990, with the majority of her nursing experience in home health. For over a decade she worked with the CMS intermediary where she provided home health documentation review and education. She provides subject matter expertise to OAI's work in the areas of home health and hospice quality, compliance and reimbursement. Annette holds both the Certificate for OASIS Specialist-Clinical (COS-C) and the Home Care Coding Specialist-Diagnosis (HCS-D) certificate. She is a Senior Associate Consultant with OASIS Answers, Inc.

Nancy Buseth, RN, PT-BS, COS-C

has 19 years of home care experience working as a staff therapist, assessment therapist, rehab director and director of referral management. She has extensive experience in medical record reviews to assess Medicare compliance, OASIS accuracy, and ongoing documentation that meets Medicare criteria for medical necessity to ensure that standards are met and to prevent loss of revenue. She has a unique insight into the practice patterns and characteristics of both nursing and therapy practitioners and leadership, given dual licensure as an RN and PT. She has experience in working with Quality Improvement interdisciplinary teams to develop action plans to improve OASIS accuracy, patient assessments and outcomes. Nancy holds the Certificate for OASIS Specialist-Clinical (COS-C) designation and is a Clinical Consultant with OASIS Answers, Inc.

OASIS-D Data Set:

OASIS data collection continues to evolve! This workshop provides instruction on the significant changes implemented with OASIS-D January 1, 2019 based on the most current CMS guidance available. This effective, up-to-the-minute education is targeted for field data collectors, their supervisors, OASIS educators and reviewers, quality improvement staff, and those preparing for the COS-C Exam.

Experience the comprehensive and nationally acclaimed two-day Blueprint for OASIS Accuracy workshop and learn to confidently teach, audit and collect OASIS-D items accurately. Through guided, expert instruction, and participation in problem-solving discussions and application scenarios, achieve mastery of the OASIS items, conventions, and the latest data collection rules.

The workshop educational objectives include:

- Selecting OASIS responses that accurately represent clinical assessment findings
- Providing accurate data for quality measurement and reimbursement
- Documenting OASIS data collection compliant with CMS resources and instructions

Rather than provide opinions, assumptions, or unfounded interpretations, the "Blueprint" presenters will model reliance on CMS guidance documents and provide and demonstrate strategies for how to find defensible answers to your OASIS questions.
