Blueprint for OASIS Accuracy Two Day Workshop

OASIS-E Data Sets:

OASIS continues to evolve! Based on the most current CMS guidance available, this workshop provides the nation's best preparation on the 27 new OASIS-E items and guidance, scheduled to become effective January 1, 2023. This engaging, up-to-the-minute education is developed and is targeted for field data collectors, clinical supervisors, OASIS educators and reviewers, quality improvement staff, and those preparing for the COS-C Exam.

Experience the comprehensive and nationally acclaimed two-day Blueprint for OASIS Accuracy workshop and learn to confidently teach, audit and collect OASIS-E items accurately. Through guided, relatable, expert instruction, and participation in problem-solving discussions to code more than 50 application scenarios.

The workshop educational objectives include:

- Selecting OASIS responses that accurately represent clinical assessment findings
- Providing accurate data for valid quality measurement and payment
- Documenting OASIS data, compliant with CMS expectations and instructions

Rather than provide opinions, assumptions, or unfounded interpretations, the Blueprint presenters will model reliance on CMS guidance documents and provide and demonstrate strategies for how to become more familiar with the new resources, and how to find defensible answers to your OASIS questions.

Workshop Presenters:

Linda Krulish, PT, MHS, COS-C, President, is a physical therapist with a Masters in Health Sciences. She has worked in the home health industry since 1988, is a nationally recognized expert on OASIS, the Hospice Item Set, and quality measurement and improvement. She also serves the Centers for Medicare & Medicaid Services (CMS) and its contractors, assisting in home health and hospice quality measures development, data set refinement and maintenance and updating of Guidance Manuals and other key provider education resources for the Hospice Item Set and OASIS. She provides oversight and subject matter expertise to manage contracts for CMS's Home Health Quality Reporting Program, CMS's Hospice Quality Reporting Program, and the CMS Home Health Value-Based Purchasing Technical Assistance Contract. She served as the President and a Founding Member of the OASIS Certificate and Competency Board (OCCB) and continues to oversee the COS-C Exam as Chair of the Exam Review TaskForce. Linda is President and Founder of OASIS Answers, Inc.

Kerry Termine, DPT, BCHH-, COS-C, is a physical therapist with a Doctorate in Physical Therapy. She has worked in the home health industry since 2007, as a field clinician, as well as in roles supporting coding and documentation for compliance and quality. She has over 10 years of experience conducting detailed reviews of clinical documentation for home health and hospice providers, focusing on OASIS and diagnosis coding accuracy, as well as regulatory compliance and documentation to support Medicare coverage. Kerry is a certified coder and an AHIMA Approved ICD-10-CM Trainer. She holds the Certificate for OASIS Specialist-Clinical (COS-C) designation and is a Clinical Consultant with OASIS Answers, Inc.
