- Home Health Billers
- Managers who need to know billing

2017 Home Health Medicare PPS Billing

M. Aaron Little, CPA, has nearly 20 years of experience with BKD and oversees the operations of BKD Health Care Revenue Cycle Services, a special team that manages the billing and revenue cycle operations for more than 100 home care, hospice

and senior living organizations throughout the nation. A CPA and leading national home care and hospice consultant, he routinely performs revenue and accounts receivable recovery services, revenue cycle operations assessments, client training and related services.

Aaron frequently consults with providers and legal counsel on billing and operations compliance matters, including assisting providers with compliance audits related to Medicare Administrative Contractors, Recovery Auditors, Zone Program Integrity Contractors and other Medicare and Medicaid program integrity contractors. He is also experienced in planning, facilitating and managing Independent Review Organization audits required by providers subject to Corporate Integrity Agreements with the Office of Inspector General. Aaron also performs financial and operational consulting services for home care and hospice organizations, including operations reviews, benchmarking, and Medicare and Medicaid cost report preparation.

Workshop Details: **8:30 am - 4:00 pm**

The Home Health PPS Regulation for implementation January 2017 has brought about changes to the PPS System, but most importantly more cuts in reimbursement. The billers and collectors are extremely important to agencies thriving in the current system so do not miss this needed education! Be the first to be current on all Medicare billing regulations implemented in 2017. This workshop will lay a concrete foundation for home health billing, as well as, financial staff by giving billers a more effective approach to the Medicare PPS regulation, conducting Medicare verifications and understanding adjustments. We will discuss Medicare verifications on patients with HIQH/HETS screen examples & review adjacent episode calculations - field by field on claim forms. We will review the process of auditing a pre-bill for final claim purposes, both Medicare and Non-Medicare Payers, and review

the details of billing for Non-Routine Supplies using billing guidelines. More and more scrutiny of agency records has been taking place in the form of ADR and RAC reviews. This session will outline the current risks and outline steps to manage that risk. If you are part of the revenue cycle in your agency this session is a must.
