Blueprint for OASIS Accuracy Two Day Workshop

OASIS-D1 Data Sets:

OASIS data collection continues to evolve! Based on the most current CMS guidance available, this workshop provides a comprehensive look at the OASIS items including the OASIS-D1 revisions and OASIS related PDGM information effective January 1, 2020. This effective, up-to-the-minute education is targeted for field data collectors, their supervisors, OASIS educators and reviewers, quality improvement staff, and those preparing for the COS-C Exam.

Experience the comprehensive and nationally acclaimed two-day Blueprint for OASIS Accuracy workshop and learn to confidently teach, audit and collect OASIS-D1 items accurately. Through guided, relatable, expert instruction, and participation in problem-solving discussions and more than 50 application scenarios, achieve mastery of the OASIS items, conventions, and the latest data collection rules.

The workshop educational objectives include:

- Selecting OASIS responses that accurately represent clinical assessment findings
- Providing accurate data for quality measurement and payment
- Documenting OASIS data collection compliant with CMS resources and instructions

Rather than provide opinions, assumptions, or unfounded interpretations, the “Blueprint” presenters will model reliance on CMS guidance documents and provide and demonstrate strategies for how to find defensible answers to your OASIS questions.

Workshop Presenters:

Annette Lee, RN, MS, HCS-D, COS-C, is a registered nurse, with a Masters in Health Care Administration practicing since 1990, with the majority of her nursing experience in home health. For over a decade she worked with the CMS intermediary where she provided home health documentation review and education. She provides subject matter expertise to OAI's work in the areas of home health and hospice quality, compliance and reimbursement. Annette holds both the Certificate for OASIS Specialist-Clinical (COS-C) and the Home Care Coding Specialist-Diagnosis (HCS-D) certificate. She is a Senior Associate Consultant with OASIS Answers, Inc.

Megan Bernier, MSPT, COS-C, is a physical therapist with a Masters in Physical Therapy. She has worked in the home health industry since 2010 as a field clinician, as well as in supervisory and administrative positions supporting home health quality improvement, regulatory compliance, clinical documentation, and operations. She has a passion and appreciation for the critical need for OASIS accuracy and is a knowledgeable and energetic OASIS educator. Megan holds the Certificate for OASIS Specialist-Clinical (COS-C) designation and is a Clinical Consultant with OASIS Answers, Inc.
