HOME CARE ASSOCIATION OF LOUISIANA

Intermediate ICD-10-CM Coding Workshop

Presented by:

**Lisa Selman-
Holman**

Baton Rouge
November 17 - 18, 2021
Two Full Days
8:30 am - 4:30 pm
Registration at 8:00 AM

* Complimentary lunch provided on each day

Who Should Attend?

- Home Care Clinicians
- Supervisors, Managers & Directors
- Coders & Coding Managers responsible for conducting the comprehensive assessment, applying diagnostic codes, auditing records for accuracy, and training agency staff.

Workshop Description...

Intermediate ICD-10-CM Coding

Change is the name of the coding game in 2022 and beyond. This course will include all the newest updates to coding for 2022, including new codes, new conventions, and new guidelines (October 1, 2021).

CMS reports that PDGM results thus far include a higher comorbidity adjustment than expected. The proposed changes to PDGM add more diagnoses to the comorbidity adjustment lists and move diagnoses in the clinical grouper. Increased dependence on coding for payment means increased scrutiny from the government. Increase your knowledge and understanding of PDGM related to diagnoses, as well as FTF requirements regarding diagnoses.

Gain the expertise your agency needs to survive in this comprehensive two-day intermediate coding course specific for home care coders. Increase your understanding of the regulatory aspects and ethics of diagnosis coding and utilize lots of examples to increase your skills, proficiency, speed, and accuracy in choosing the appropriate ICD-10-CM codes.

Attendees will be able to demonstrate proficiency in complex coding scenarios and be ready to tackle home care charts with confidence. We will apply PDGM concepts to scenarios so that home health participants will understand payment implications and compliance issues.

Attendees will also be able to:

- Identify compliance issues related to coding accuracy and Patient Driven Grouper Model.
- Identify new codes and guidelines effective October 1, 2021.
- Explain coding of infectious diseases, diabetes, and circulatory conditions.
- Explain coding of respiratory conditions, injuries, and complications.
- Explain coding of aftercare and other conditions.

■ ■ REMINDER

Don't forget to bring your current ICD-10-CM Coding Manual to the workshop.

13 CONTACT HOURS WILL BE PROVIDED

HomeCare Association of Louisiana is approved as a provider of nursing continuing professional development by Louisiana State Nurses Association Approver Unit, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
