

What Have We Learned About Emergency Preparedness?

Webinar

March 26, 2019 | 2:00-3:00pm CST

It's been over a year since providers were to have fully implemented the Emergency Preparedness requirements and what a year it has been!

In 2018, the US experienced the deadliest wildfire in California and the worst hurricane to hit the East Coast since 1969.

- How did your agency fare?
- Did you have to implement your Emergency Preparedness plan?
- What lessons did you learn?

As we start off 2019, now is the time to review and revise your agency's plan in order to ensure you are meeting the mandatory requirements and more importantly to ensure your plan is the most reliable in the event you need to activate it in 2019.
