

Air Committee

Committee Description

The AEF's Air Committee works to keep our members informed about issues such as ozone, particulate matter, air emissions standards, greenhouse gas reporting, MACT standards, permitting, inspections and enforcement initiatives. The Committee also plans and conducts an annual Air Regulations Update Seminar and an Air segment in the AEF's Annual Convention & Trade Show designed to educate industries on their obligations in air pollution control. The Committee meets at the call of the Chair and is open to all AEF members in good standing. Member companies may have more than one representative on the Air Committee.

Committee Leadership

Ms. Lacey Ivey
