CMA's 2014 Fall Program

Governor Kasich's Plans: What Doctors Should Know

Columbus Medical Association

Featuring Guest Speaker: Greg Moody, Director of the Governor's Office on Health Transformation

Tuesday, November 18, 2014 6:30—8:00pm
Location: Columbus Medical Association Training Center
1390 Dublin Rd. Columbus 43215 (between Grandview & 5th Avenues)
Member Physicians - __Free__ / Member Guests/Nonmember Physicians - $25.00 (hors d'oeuvres included)

How Ohio health care providers are paid could change drastically under Governor Kasich's plan to pay for "value rather than volume." You need to understand how these proposed changes will affect you and there is no better person to provide the details than Greg Moody, Director of the Governor's Office on Health Transformation.

Join your fellow colleagues as Mr. Moody presents information on the Governor's plans, including:

- "Payment innovation initiatives" (ranging from rewards for value over volume to primary care/specialty care bundled payments.
- Private sector support of the plan (Aetna, UnitedHealthcare and Medical Mutual are all supporting the plan, meaning over 85% of the private market will be involved.)
- Responses to questions from local physician panel and from attendees.

Greg Moody, Director of the Governor's Office on Health Transformation
