#### **Course Description**

This class builds upon the basic class that many have attended and is also useful to those who have not attended that class but are involved with any aspect of purchase and carry permits. The course starts where the basic 4-hour class left off. In class we will dig much deeper into the analysis behind federal and state disqualifications, examine common but troubling issues, and help you either develop or review your existing process for permit analysis. We will also work on pointers and process to increase the successful outcome chances in the event of permit litigation either through denial, voiding or revocation proceedings. Because there is an increasing number of petitions to restore firearms rights under state law, we will develop some policies and procedures to work with your prosecutors to defend these cases as well.
