## Training Announcement

### Advanced Data Practices

The Carlton County Sheriff's Office and the Minnesota Sheriffs' Association are sponsoring Rick Hodsdon's

### **Advanced Data Practices Training**

on

**October 10, 2019 from 8:30 AM – 4:30 PM**

This class builds upon the basic class that many have intended and is also useful to those who have not attended that class but are involved with any aspect of data practices management. In class we will dig much deeper into the analysis behind data practices issues with a focus on law enforcement data, data security, responding to data requests and overall data management and help you review your existing process in several of these areas. We will also work on pointers and process to increase the successful outcome chances in the event of data practices disputes or litigation.

The class is designed and targeted for county and city staff members who handle any and all aspects of law enforcement data as well as law enforcement administrators and legal counsel who advise city police and county sheriffs and litigate these cases.

**Important:** This course is one that uses your real-life cases or ones you have dealt with as an exercise to help you develop processes and systems to analyze special issues involved in data practices. Each attendee is asked to bring with them a real life case that they either have worked on or are working on to be used as a case study and learning device to be discussed in the class.

**Cost:** \$150 (includes refreshments and class materials)

**Location:** Carlton County Transportation Building  
----- 1630 Co Road 61 Carlton, MN 55718-----

**P.O.S.T. Credits:** 7

**Registration:** MSA web site at [www.mnsheriffs.org](http://www.mnsheriffs.org) under Rick Hodsdon Trainings
