

FORENSIC PATHOLOGIST III/IV

COUNTY OF RIVERSIDE SHERIFF-CORONER

Would you like to take your career in Forensic Pathology to the next level? The Riverside County Sheriff's Department is seeking a dynamic and accomplished FORENSIC PATHOLOGIST III/IV to join its Coroner's Bureau. The Coroner Bureau operates out of two facilities in Southern California, in the cities of Perris and Indio servicing the County of Riverside with a population of over 2 million. In 2015, the Coroner's Bureau, which includes a Chief Forensic Pathologist, four full time forensic pathologists, and three part time forensic pathologists, performed approximately 1600 forensic autopsies. In addition, our Bureau also performs external examination "consultations," with ancillary support provided by an on-site anthropologist, contract odontologist and contract neuropathologist.

The selected candidate, under general direction, performs autopsies and other professional work in forensic pathology to determine the cause and time of death; testifies in court, and performs other work as required.

This specialized classification is allocated to the Coroner's Office of the Sheriff's Department and reports to the Chief Forensic Pathologist. The Forensic Pathologist III classification is an underfill for the Forensic Pathologist IV classification. An incumbent at the III level has the necessary experience to provide the full range of forensic pathology duties; however, a III level incumbent is Board eligible for certification, whereas the IV level possesses Board Certification in Forensic Pathology. A Forensic Pathologist III incumbent is promoted to a Forensic Pathologist IV when proof of Board Certification as a Forensic Pathologist is provided to the Department.

Please visit www.rc-hr.com to view the complete job bulletin and qualification requirements.

To be considered for employment, the applicant must possess the following qualifications: valid Physician's and Surgeon's Certificate issued by the State of California and, at a minimum, be eligible for certification in forensic pathology with the American board of Pathology.

The main office in Perris is located 60 miles east of Los Angeles, 45 miles northeast of the beach cities of neighboring Orange County, and 90 miles north of San Diego. The western end of Riverside County is home to the city and county seat of Riverside and to Temecula Valley wineries, festivals and the Pechanga casino. The Desert Forensic Center in Indio serves the eastern portion of Riverside County, covering approximately 30% of the forensic death investigations in Riverside County. The Coachella Valley's desert cities are hosts to many athletic and cultural events and they offer many fine resort hotels, dining establishments, casinos, golf courses and outdoor activities. In addition to popularity as a vacation spot, the Coachella Valley offers both family and retirement style living.

In addition to a competitive salary, Riverside County offers an attractive benefits package. Salary is commensurate with qualifications and experience:

Certificate Required: Possession of a valid physician's and Surgeon's Certificate issued by the State of California

AND/EITHER

Forensic Pathologist III Level: Up to \$212,548 annually

Eligible for certification in Forensic Pathology by the American Board of Pathology.

OR

Forensic Pathologist IV Level: Up to \$249,444 annually

Certification in Forensic Pathology by the American Board of Pathology.
