Direct Deposit is when your support payments are electronically transferred directly to your existing bank account. Your support deposits will be included on your existing bank statement received from your financial institution.

Ohio offers two methods for receiving child support payments through e-Disbursements: Direct Deposit and the Ohio e-Quick Pay® Debit MasterCard®. Both methods provide you with a faster, simpler and safer way to receive your support payments.

The e-Quick Pay® card works like any other debit card. You do not need a bank account to use the e-Quick Pay® card. You can use the card to make purchases, obtain cash withdrawals from an ATM machine or bank teller window. The e-Quick Pay® card offers the ability to keep a record of child support transactions separate and apart from other records of existing bank accounts.

**WHY IS E-QUICK PAY® BENEFICIAL?**

e-Quick Pay® is beneficial for parents as they will receive child support payments in a more safe, convenient and efficient manner. e-Quick Pay® Debit MasterCard® allows easy access to cash and services through a MasterCard® bank teller. Withdrawal fees from a MasterCard® ATM will be $0.75. The custodial parent will no longer incur possible check cashing fees.

Electronic disbursement is a good example of government using technology to save money and improve services. This process could save taxpayers millions of dollars in postage and other costs associated with paper transactions.

**WHAT IS THE DIFFERENCE BETWEEN e-DISBURSEMENTS AND DIRECT DEPOSIT?**

With direct deposit you must have an open bank account where support payments can be deposited.

- You can use the account for other banking needs
- Only child support payments can be processed on the card payment was posted to your case

With the e-Quick Pay® debit card you do not need a bank account.

- Funds are available within two to three business days after posting to your case
- Funds are available by midnight the business day following the day a
1. Custodial parents will have access to funds faster, from 2 to 4 days sooner than checks.

2. Thousands of MasterCard® banks will give cash with no fee at teller windows.

3. The process is less expensive “to cash” than paper checks.

4. Balance information will be available 24 hours a day seven days a week via telephone and the Internet.

5. Lost or stolen checks are eliminated.

6. Ohio will save costs associated with check printing and mailing.

7. The process will eliminate work and costs associated with returned checks.

8. Check fraud is eliminated.

HOW WILL THIS BENEFIT CHILD SUPPORT CUSTOMERS?
