IDENTIFICATION
WORKSHOPS
2.5 CE CREDIT HOURS**

**ONE HEALTH
VERMONT**
VERMONT VETERINARY MEDICAL ASSOCIATION

Limited to 25 registrants

Vector-borne diseases are becoming more prevalent and more important day by day. Please join the VVMA's One Health Committee for a timely Tick ID workshop with Alan Graham, recently retired state entomologist for the Vermont Agency of Agriculture, Food & Markets.

- Lecture – 1 hour
 - Most common/most important species of ticks found in Vermont
- Lab – 1 hour
 - Learn to identify ticks using a tick identification key and specimens seen under microscopes and through hand lenses
 - Hand lens and tick puller provided for each participant
 - Printed tick ID key available in handout packet
- Discussion – 30 minutes
 - Discuss with your colleagues what new tick-borne diseases you and they are seeing in practice currently

171 Bridge Street

Hartford Municipal
Building

Pizza dinner provided

Alan Graham received his Master of Science in Entomology and Applied Ecology from the University of Delaware. His bachelor's degree in Zoology from Syracuse University also had a focus on invertebrates. He is a member of the Northeastern Mosquito Control Association, the American Entomological Society, the Entomological Society of America, and the American Mosquito Control Association, as well as being a member of the Vermont Invertebrate Species Advisory Group. In his professional career, he has taught in Costa Rica, conducted ecological stream research for the Stroud Water Research Center in London Grove, PA, and served in various capacities for Vermont's Agency of Agriculture, Food & Markets, including Vector Management Coordinator and culminating in the position of State Entomologist, from which he retired in 2017.
